Official Paper of the City.

The Money Panic.

The determination of the Chicago bankers to throw out the bills of seven of their banks, and the call of the state auditor for additional securities, together with the howl down south about secession, produced considerable uneasiness here in relation to money matters. But our business men, generally, have come to the sensible conclusion that there is no occasion for alarm, so far as our own banks are concerned, and business moves on as usual. The paper of all Illinois banks is received for goods, except that of the seven supposed lame ducks, which is taken by some at a discount.

If exchange cannot be purchased at a fair rate the best thing that can be done is for our dealers to purchase flour, wheat, pork, etc., and send it forward. At present prices the products of the country will be a safe medium of paying debts in New York, and in this way bank bills can be kept in circulation without drawing for the specie. This will be a good way to regulate the exchanges, and will soon tell upon the brokers, who will find their occupation gone unless they sell exchange at a reasonable rate.

The Chicago Tribune of to-day says:

The stagnation in financial circles today, [Wednesday,] has been if anything more marked than during any time for the past week. The banks have been more indisposed to sell exchange, and some of them utterly refuse to accommodate on any terms. The reason given is that they have none. The rates to customers are 5a6 per cent, and a few charge 10. The street rates 8 to 10 per cent. The high price of exchange, pork paper, &c., must ere long relieve the market, though no one need look for low rates for some time to come.

Gold, buying at 5a8 per cent; selling 10 premium. The demand to-day has fallen off considerably.

There is a much better feeling in regard to the rejected Illinois currency. Several of our merchants advertise to take it at par for goods, and we hear of a proposition on the part of our bankers, with a few exceptions, and some of our railways, to take it as heretofore.

It was reported in Chicago yesterday that the New York banks would suspend specie payment to-day, and the rumor was current on our streets to day, that they had suspended, but telegraphic despatches of to-day do not allude to it. Yesterday afternoon despatches to Chicago show an improved Stock Market on Wall street.

Trouble in Kansas.

There are accounts from Leavenworth of trouble among the settlers in southern Kansas, in consequence of the land sales.—Capt. Montgomery is reported to be at the head of 500 men, who are driving off the federal officers at Fort Scott, and those who are supposed to sympathise with them.—Merchants are removing their goods from that quarter. The accounts are from federal officials, and are evidently got up to produce excitement, as they charge the difficulty upon "abolitionists, with arms newly imported from Boston, &c." The persistence of the government in selling the lands at a time when the people are utterly unable to pay for them, is cause enough for an outbreak.

MR. LINCOLN IN CHICAGO.—Hon. Abraham Lincoln and lady arrived in Chicago, yesterday, and are at the Tremont house. Hon. Hannibal Hamlin was expected to-day.

VICTOR EMANUEL AND GARIBALDI IN NAPLES.—The steamship Palestine has arrived bringing intelligence that Victor Emanuel arrived at Naples on the morning of the 17th inst., accompanied by Garibaldi.—They proceeded together to the chathedral, and afterwards to the royal palace, where great festivities took place in spite of bad weather. The Pope's army is to be disbanded.

MELANCHOLY ACCIDENT.—By a private letter from Lodi we have the particulars of a melancholy accident which occurred in that town on the 14th inst., to Henry Palmer, son of Judge Palmer, causing his instant death. He was attempting to cover one of the Judge's horses with a buffalo robe when the animal became frightened and started to run. He caught the horse by the bit, was thrown down and his skull broken in a most shocking manner.—Young Henry was very much esteemed in the community, and his sudden death cast a gloom over the village.—*Portage City Record.*

HANNIBAL HAMLIN.—The Hon. W. S. Lindsay, who is now in this country as the representative of the British shipping interests, paid the following deserved tribute to Mr. Hamlin in his speech before the Philadelphia Board of Trade:

"He said he had met most of the Governors of the States through which he had passed, and enjoyed interviews with a very large number of prominent men in the country, in particular the Hon. Hannibal Hamlin of Maine. He spent an afternoon at the quiet residence of this gentleman, and felt bound to say that for comprehensive knowledge of those commercial and maritime questions in which both nations are interested, he had met no gentleman so fully versed as the gentleman just elected Vice-President of the United States."

Censure is most effectual when mixed with praise. So, when a fault is discovered, it is well to look up a virtue to bear it company.

When did the ocean first bear grain? In the time of Ce-crops.

New Compromises.

After the south has exhausted the patience of the northern people in frantic opposition to the election of Lincoln, by revolutionary speeches and political demonstrations, and just as the reaction in the public mind is about set in, new compromises will be proposed.

They will ask us to protect slaveholding in the territories, permit slaveholders to sojourn in the free states with their slaves as long as they please, catch their runaway negroes for them, and abolish all state laws against kidnapping. If we will do all this, under the name of compromise, the chivalry will not leave the Union. That is the next entertainment to which we shall be invited.

Northern doughfaces already begin to prepare the public mind for the programme by ringing the changes upon the wrongs which have been inflicted upon the *dear* South, and by pointing to the consequences which we have brought upon ourselves in the shape of a commercial panic, because we are not willing to let the south do as they please, in the disposal of the power of the general government.

While they ask these things of us and insist upon the "equality of the States," they make no proposition to protect the *citizens* of the Northern States, in the South. While they demand immunity, and free ingress and egress for their *Slaves* among us. American *citizens* are forbidden to travel in the South, if they are suspected of differing from them in opinion.

With the experience of the last few years, we think Northern freemen are in no temper to treat with the South upon the basis of compromise. We have put forth no sentiment in relation to Slavery in our Republican platform which can be compromised without yielding a vital principle. When we conceded the right of each State to regulate its own domestic institutions, in its own way, without interference from other States, we went as far as we can go. We cannot be made to say that the natural condition of each territory is that of Slavery—we never will protect Slavery by the powers of the general government—and we never can be compelled to say or to believe that Slavery is right anywhere.

This latter point is what most galls the slaveholder—to be told that the institution upon which he bases his politics and religion, is a *moral wrong*, leading to barbarism, in every community which supports it, is the point which produces the extreme sensitiveness of the Slaveholder. No compromise can ever wipe out this truth. It is immutable and eternal, and the South may make up its mind to submit to this verdict from civilized man in all countries. They have no right to complain of us because it is so—it is the will of the Maker of all things, and cannot be altered, though every white man in America should resolve that it is not so.

The Rationale of the Panic.

That our readers may understand a little more precisely why and how the present financial crisis has occurred, they must understand the process by which the business of the cotton states is transacted. It differs entirely from that to which we are accostomed in the northern states, and the worst feature of it is that any derangement of credit in Charleston, Mobile or New Orleans is felt with great severity throughout the entire region dependent upon them for supplies and export facilities.

The planter consigns his rice or cotton to some factor, who disposes of it, and after purchasing such articles as were ordered at the time of advance of the consignment, sends an account of sales and disbursements and balance on hand to his principal, who draws on him when he needs money, till it is exhausted. The purchaser of the cotton then either ships it, consigned to some house abroad and sells the draft against it with the bills of lading attached to the banks of foreign agents, or sells the cotton itself to the same parties. Bills drawn on Liverpool or London are are chiefly at sixty days' sight, with the expectation that the shipment will be received and sold before they mature. The present distrust of bills drawn by the Charleston banks arise from the fear that, owing to the insurrectionary action on the part of the mob, Charleston may be declared no longer a port of entry, and be blockaded, so that the cotton could not go forward; when, of course, their bills would be returned, with a heavy damage against the endorsers.

If secession or any attempt to seize the forts should take place, the port would be closed, the banks would not buy either rice, cotton or bills; the planter could not sell his crop nor buy his supplies; the merchant could neither sell his goods nor get his pay for those already sold on credit, and universal bankruptcy would prevail throughout the state with the greater severity this year, that the corn crop is so deficient that many planters find it will take all they receive for their cotton to purchase food for their hands till the next crop comes in. When to this is added the heavy taxation inseparable from the maintanance of large bodies of troops and purchases of war *material*, it is evident that the immediate effect must be to derange the vital circulation of the slave states and subject them to deplorable losses, which the north must share in proportion to the extent of its ordinary commercial transactions with that section.

It is to prevent this interruption of commercial circulation that our banks and business men are making great efforts, and we may add great sacrifices, every day. They may accomplish much, but we fear they cannot prevent a gradual but steady depression of values for some time yet to come. There is a very large body of negroes to be fed at the south, at an extraordinary expense. That cost will increase from day to day until the new crop comes in, and, till the extent of this extraordinary expense can be estimated, the north cannot settle up with the South, and settling up is a process which must precede any permanent arrest of a declining market. Our people must not, therefore, look to any immediate improvement in our financial condition. The clouds in the political horizon will be speedily disposed of; but the financial atmosphere cannot be so easily cleared. The commercial relations of the north cannot be restored until both sections agree upon terms for a mutual discharge, a result which cannot be attained until not only the balance of indebtedness, but the resources for its payment are pretty accurately ascertained.—*N. Y. Post.*

Pennsylvania made the first turnpike road in the United States, laid the first railroad, established the first water works, ran the first locomotive, established the first hospital, the first law school, the first public museum, the first hall of music, and the first library in the world opened freely to all-good for Pennsylvania!

Telegraphic.

REPORTED FOR THE DAILY GAZETTE.

BY WISCONSIN STATE TELEGRAPH LINE,
Office in Union Passenger Depot.

NEW YORK, 22.

The association of banks yesterday agreed to issue certificates of deposit in denomination of $5,000 and $10,000 bearing 7 per cent interest, and based on bills receivable at U. S. Treasury notes or stocks of the State of New York, said certificates not to exceed five millions of dollars, and to be used in the settlement of balances at the clearing house for 30 days, and to be received by creditor banks daily in such proportion as they bear to the aggregate amount of the debtor ballances paid at the clearing house. They also resolved that the specie in all the banks, amounting to about twenty million dollars, be treated as common funds for mutual aid and protection, in view of liberal expansion; also that after the first of February next, every bank in the association shall have on hand at all times, an amount of specie equal to one fourth of its liabilities; and any bank falling below that proportion shall not make loans or discounts, until its position is re-established.

BALTIMORE, Nov. 21.—The Bank Presidents of this city held a meeting this afternoon and resolved to suspend specie payments to-morrow morning.

AUGUSTA, Ga., Nov. 21—Both branches of the Georgia Legislature have unanimously passed a bill to call a State Convention.

PHILADELPHIA, Nov. 21.—The brokers of this city refuse to take the notes of the Bank of Commerce, at Erie, and the Pitston Bank.

WASHINGTON, Nov. 21.

The message will be presented to Congress on the third day of the session. Advance copies will be sent north as far as Boston, and south as far as Richmond.

A Tribune despatch says Judge Greenwood, commissioner of Indian affairs, has returned from a trip to Arkansas. He states that three-fourths of the people there are opposed to any disunion movement until some unconstitutional act has been committed, justifying resistance.

A Herald despatch says that Senator Chandler does not desire a seat in Lincoln's Cabinet; also, that Secretary Thompson had a free consultation with Mr. Corwin as to the measures of the present and coming administration to avert the impending danger. The same correspondent says that information has been received there that nineteen-twentieths of the large slaveholders of the cotton states, who do not however compose a tenth of the voters there, deprecate the secession movement.

FORT KEARNEY, Nov. 22.

The pony express which left San Francisco on the evening of the 10th, passed here at 4 o'clock this morning, but left no despatches for the associated press. This pony is over twenty-four hours behind time, owing to bad storms in the mountains.

The wind here is east of north, and blowing a gale, accompanied with fine, dry snow. The thermometer marks 29° and is descending.

The few Pike's Peakers who are now on the road in this vicinity, have pitched their tents and anchored them to await the abatement of the storm, it being impossible to travel with ox teams and wagon in such boisterous weather.

WHEELING, Va., Nov. 22.

Banks of this city suspended specie payment this morning. They are in undoubted condition, and will keep their notes good currency.

NEW ORLEANS, Nov. 21.

It is reported that several produce houses have suspended to-day. Meetings are being held in Texas, calling on the governer to convene the legislature, to consider the proper method of vindicating the rights and honor of Texas.

PHILADELPHIA, Nov. 22.

The bank presidents meet at noon to day to consider the propriety of suspension.

WASHINGTON, Nov. 22.

The Washington banks suspended this morning.

WASHINGTON, Nov. 22.

The District of Columbia banks suspended specie payment to-day. There is no panic. The father of Gen. Walbridge of N. Y., died this morning after a suffering illness of several weeks.

NEW YORK, Nov. 21.

Thomson Brothers state that the currency panic to-day has been equal to that of 1857. They quote all bills south of Washington at 70a75 per cent discount. Illinois and Wisconsin 15 per cent discount. Ohio, Indiana, Kentucky and Canada 3a5 discount. New York state and New England 1-2 discount. Maryland and Pennsylvania 1a2. The Post says the presidents of the leading banks are discussing a project for relieving the community by issuing scrip based on bills receivable of United States stocks and other approved collaterals, to pass in liquidation of bills to each. The scrip to bear 7 per cent interest. The banks thus hope to be soon in a position to meet the wants of their dealers. An expansion in loans of several millions is looked for this week.

MARRIED.

In Janesville, Nov. 21st, 1860, by Rev. E J. Goodspeed, HENRY HEMMING, of the firm of Hemming & Thomas, and Miss ANNA AKERLY.

Also, by the same, on the same day, GEORGE MORRIS PIERCE, late of California, and Miss ANNA COMSTOCK, of Rock.

Also, by the same, Nov. 22d WILLIAM SKELLY, of this city, and Miss MARY MELVINA WILLIAMS, of the town of Janesville

In Whitewater, Tuesday, the 20th inst., by the Rev. M. P. Kinney, CHARLES H GIBBS, esq., of this city, and Mrs. F. BIRGE, of Whitewater.

DIED.

At his residence in Lima Center, Wis, Nov. 12th, Dr. L. M COON, aged 30 years.

By this melancholy event his family and friends and the community at large have met with an irreparable loss. All will indeed miss his hopeful and health inspiring visits to their bedsides, and the afflicted will miss his sympathizing voice. As a physician and surgeon he had deservedly won a high reputation; and he endeared himself to all the friends of education by his earnest and active zeal in that cause; but above all as a husband, parent and man he was kind, affectionate, honest and upright. His family are specially deserving of the sympathy of the community, as this bereavment deprives a crippled son of his chief support and protection. [Com.

In Watertown, New York, Nov. 9th, at the residence of W. F. Otterson, of congestion of the stomach, EVA LMOGEN, 2d daughter of Wilson A. and Caroline E. Heed, aged 7 years, 6 months and 2 days.

Eva was a child of remarkable intelligence and vivacity of mind, and her face always wore a happy smile, making her a favorite with all who knew her. But "Death loves a shining mark," and with unrelenting hand has borne our treasure from our arms. Yet we do not fear for Eva; our child has gone, simple and trusting, in her childish innocence into the hands of our all-wise Father. Of such we know is the kingdom of Heaven.

Softly as the golden sun
Sinks behind the purple west,
Our darling Eva passed away,
To sleep her long and quiet rest. [Com.

The above is the oldest company doing business in this state, and with peculiar propriety has been denominated "*The Old* Hartford." As an *indemnity* to the insured, it refers to a solid million of assets well invested; and if anything were needed to commend it to the public for liberal patronage, we might offer its history of success in business and honorable dealing with its patrons, for over half a century, as amply sufficient for the purpose.

THE above are *First Class, justly popular, and prompt paying* companies. They invite investigation into their condition and solicit business entirely upon their real merits. In point of solvency and reliability and honorable dealing, they have but *two equals, and no superiors.* They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, *in times of panic,* as the experience of the past testifies, to become almost, if not entirely, valueless. And while these Companies entering the field of competition, well calculated to mislead by publishing *partial and one-sided* statements of their condition, and without a cash surplus on hand sufficient to reinsure their outstanding risks, the above named companies always have and keep over and above their capital *twice* the amount, and in most instances *four* times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.

Policies issued without delay, and farms risks for a series of years taken at less rates than can be done by Mutual Companies, and a *certainty* given instead of an *uncertainty.* All losses promptly adjusted and paid.

DAILY GAZETTE.

Every Day Life Among the Secessionists.

Fitz Hugh Ludlow, the "Hasheesh Eater," has been visiting Florida, and thus describes some of his experiences in the New York Commercial Advertiser. Though not "news," the incident related below is appropo just now:

I recollect sitting one night at a teatable in Jacksonville, when the news of the election of Speaker Pennington had just arrived. A mercurial southern friend of mine arose from his seat—dropping on his plate the fragment of bacon which he had just speared—and holding his knife and fork high in the air, called all the divinities to witness, that should the dissolution of the Union ever come to pass (southerners always put it hypothetically)—and should the north ever attempt to keep the south in the Union by force of arms—or even dare to try kicking her out—(either of these is a favorite hypothesis south of Mason and Dixon's line)—and should he be too old to walk to the scene of conflict—he would crawl on his hands and knees to the banks of the Potomac and mingle the boundary waters with his and the hostile blood. A thrill of horror ran around the table at this terrible declaration, and the hair of several northern invalids stood erect. But, for the life of me, I could not take the thing seriously. I straightway drew a picture of my venerable friend, who weighed two hundred and thirty odd pounds—creeping on all fours in a pair of new cassimere pantaloons by which he set great store, through the six inches of mire which usually accumulate on Virginia roads about the season of a presidential inauguration—with an old musket between his teeth, and a cold chunk of bacon in the commissarist department of his raglan—to make a compound of his fiery blood with the Old Dominion mud and ditch-water.—In an instant his face relaxed—his knife and fork came down—he uttered a hearty haw-haw, chorused by all the table—and in a minute more, was attending to the abandoned bacon with as placid a soul as if Keitt had been the speaker instead of Pennington.

It is astonishing to see with what sangfroid the people of the south will talk of the slavery question before their negroes. I recall one occasion upon which our whole party in one of the southern states had been discussing the subject of abolitionism in the presence of five or six attendant slave waiters. The whole question of a possible internecine war between the north and the south had been canvassed from beginning to end. One young South Carolina planter had been particularly bloodthirsty in his threats of vengeance upon the north.—Should the abolitionists (another hypothesis, you see,) march down to take the city of Charleston, he would arm all his negroes, he said, and set them in the van of the defending force to do battle against their "northern brothers."

The conversation being over—and the company dispersed—one of the waiters, an old Charleston negro, called me out of the room on the pretense of having a felon on his finger examined by me. When we stood in the dark of the negro quarters, he whispered to me—

"Massa! Do them abolitionists raly mean to come and help us?"

"Don't talk about such things, Cæsar! No! They *can't* come. They couldn't help you if they would."

"Well, Massa—I jis tell you what! I'd like to see 'm put guns into our hands—and set us ahead to do the fightin! Dey'd find out who we'd fight for! Dey darsn't put de guns into our hands! No! Dey durs'nt!"

And an hour after I heard Cæsar's master say that he would trust him with his life!

THE BIBLE IN NAPLES.—The Naples correspondent of the London Times, writing of Victor Emanuel's expected arrival in that city, says:

"He will have two powerful assistants with him in his work of redemption, and I saw them together on the stalls in the Toledo the other evening. They lay quietly side by side for sale—the pistol and the Bible—life and death, or rather death and life, and Garibaldi well knows their power. About the statistics of the pistol I know nothing, but I stopped at one of the stalls where a number of copies of Diodati's New Testament were lying (printed by the British and Foreign Bible Society) and asked the proprietor how many he had sold.

"Perhaps," said he, "two or three hundred." "And to whom—foreigners?"—"No; to persons, *cosi*, Neapolitan." I hear, however, from an excellent and well-informed friend, that nearly 2,000 copies of the Bible have already been given out for sale. The stall-keepers come eagerly for them, from which I conceive that the demand must be great."

GREAT EXCITEMENT IN NEW ORLEANS.—Kennet, the showman, has a hippotamus, which he has recently been exhibiting to the good folk of New Orleans. They having been exceeding liberal in the patronage of his show, Kennet advertised that on the day of his departure he would lead the animal through the streets, *en route* for the depot. Vast crowds lined the way. Presently the shower and the showee made their appearance, to the great delight of the unwashed, who cheered and huzzahed most lustily.—The hippopotamus, unaccustomed to so public a demonstration, eyed first one side, then the other, and suddenly standing on his hind legs, grunted out, "Ooashunckon," "ooashunckon," in a sound and distinct manner. At first the populace laughed, but it being suggested by some one that he meant "Hurrah for Lincoln," an attempt was made to kill him and mob his keeper,—an undertaking which would undoubtedly have been successful, had not the keeper protested on his honor that the animal always did so when he was frightened, and that long before Lincoln was heard of the hippopotimi of all climes had indulged in the same remarkable dialect.

It is he that has much and wants more that is poor, and he who has little and is with it content, that is rich.

The most direct method of determining horse power—stand near and tickle his hind legs with a brier.

Sure to make you come up to the scratch—The itch.

The girls that are constant to the typos—Ems.

Why is the letter L like a calf's tail?—Because it is at the end of veal.

If the common people cannot discover your virtues, get rich, and they will be sure to discover all you have—and as many more.

Insurance against loss or damage by fire, on Dwellings, Furniture, Stores, Warehouses, Merchandise, Mills, Manufactories, and most other kinds of property, can be effected in this company upon as favorable terms as the nature of the risks and security of policy-holders will admit.
The above is the oldest company doing business in this state, and with peculiar propriety has been denominated "*The Old Hartford.*" As an *indemnity* to the insured, it refers to a solid million of assets well invested: and if anything were needed to commend it to the public for liberal patronage, we might offer its history of success in business and honorable dealing with its patrons for over half a century, as amply sufficient for the purpose.

THE above are *First Class, justly popular, and prompt paying* companies. They invite investigation into their condition and solicit business entirely upon their real merits. In point of solvency and reliability and honorable dealing, they have but *few equals, and no superiors.* They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, *in times of panics*, as the experience of the past teaches, to become almost, if not entirely, valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing *partial and one-sided* statements of their condition, and without a cash surplus on hand sufficient to reinsure their outstanding risks, the above named companies always have and keep over and above their capital *twice* the amount, and in most instances *four* times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.
Policies issued without delay, and forms risks for a series of years taken at less rates than can be done by Mutual Companies, and a *certainty* given instead of an *uncertainty*. All losses promptly adjusted and paid.

DAILY GAZETTE.

Every Day Life Among the Secessionists.

Fitz Hugh Ludlow, the "Hasheesh Eater," has been visiting Florida, and thus describes some of his experiences in the New York Commercial Advertiser. Though not "news," the incident related below is appropo just now:

I recollect sitting one night at a teatable in Jacksonville, when the news of the election of Speaker Pennington had just arrived. A mercurial southern friend of mine arose from his seat—dropping on his plate the fragment of bacon which he had just speared—and holding his knife and fork high in the air, called all the divinities to witness, that should the dissolution of the Union ever come to pass (southerners always put it hypothetically)—and should the north ever attempt to keep the south in the Union by force of arms—or even dare to try kicking her out—(either of these is a favorite hypothesis south of Mason and Dixon's line) —and should he be too old to walk to the scene of conflict—he would crawl on his hands and knees to the banks of the Potomac and mingle the boundary waters with his and the hostile blood. A thrill of horror ran around the table at this terrible declaration, and the hair of several northern invalids stood erect. But, for the life of me, I could not take the thing seriously. I straightway drew a picture of my venerable friend, who weighed two hundred and thirty odd pounds—creeping on all fours in a pair of new cassimere pantaloons by which he set great store, through the six inches of mire which usually accumulate on Virginia roads about the season of a presidential inauguration—with an old musket between his teeth, and a cold chunk of bacon in the commissariat department of his raglan—to make a compound of his fiery blood with the Old Dominion mud and ditch-water.—In an instant his face relaxed—his knife and fork came down—he uttered a hearty haw-haw, chorused by all the table—and in a minute more, was attending to the abandoned bacon with as placid a soul as if Keitt had been the speaker instead of Pennington.

It is astonishing to see with what sangfroid the people of the south will talk of the slavery question before their negroes. I recall one occasion upon which our whole party in one of the southern states had been discussing the subject of abolitionism in the presence of five or six attendant slave waiters. The whole question of a possible interneeine war between the north and the south had been canvassed from beginning to end. One young South Carolina planter had been particularly bloodthirsty in his threats of vengeance upon the north.—Should the abolitionists (another hypothesis, you see,) march down to take the city of Charleston, he would arm all his negroes, he said, and set them in the van of the defending force to do battle against their "northern brothers."

The conversation being over—and the company dispersed—one of the waiters, an old Charleston negro, called me out of the room on the pretense of having a felon on his finger examined by me. When we stood in the dark of the negro quarters, he whispered to me—

"Massa! Do them abolitionists raly mean to come and help us?"

"Don't talk about such things, Cæsar! No! They *can't* come. They couldn't help you if they would."

"Well, Massa—I jis tell you what! I'd like to see 'm put guns into our hands—and set us ahead to do the fightin! Dey'd find out who we'd fight for! Dey darsn't put de guns into our hands! No! Dey durs'nt!"

And an hour after I heard Cæsar's master say that he would trust him with his life!

THE BIBLE IN NAPLES.—The Naples correspondent of the London Times, writing of Victor Emanuel's expected arrival in that city, says:

"He will have two powerful assistants with him in his work of redemption, and I saw them together on the stalls in the Toledo the other evening. They lay quietly side by side for sale—the pistol and the Bible—life and death, or rather death and life, and Garibaldi well knows their power. About the statistics of the pistol I know nothing, but I stopped at one of the stalls where a number of copies of Diodati's New Testament were lying (printed by the British and Foreign Bible Society) and asked the proprietor how many he had sold.

"Perhaps," said he, "two or three hundred." "And to whom—foreigners?"—"No; to persons, *cosi*, Neapolitan." I hear, however, from an excellent and well-informed friend, that nearly 2,000 copies of the Bible have already been given out for sale. The stall-keepers come eagerly for them, from which I conceive that the demand must be great."

GREAT EXCITEMENT IN NEW ORLEANS.—Kennet, the showman, has a hippotamus, which he has recently been exhibiting to the good folk of New Orleans. They having been exceeding liberal in the patronage of his show, Kennet advertised that on the day of his departure he would lead the animal through the streets, *en route* for the depot. Vast crowds lined the way. Presently the shower and the showee made their appearance, to the great delight of the unwashed, who cheered and huzzahed most lustily.—The hippopotamus, unaccustomed to so public a demonstration, eyed first one side, then the other, and suddenly standing on his hind legs, grunted out, "Ooashunckon," "ooashunckon," in a sound and distinct manner. At first the populace laughed, but it being suggested by some one that he meant "Hurrah for Lincoln," an attempt was made to kill him and mob his keeper, —an undertaking which would undoubtedly have been successful, had not the keeper protested on his honor that the animal always did so when he was frightened, and that long before Lincoln was heard of the hippopotimi of all climes had indulged in the same remarkable dialect.

It is he that has much and wants more that is poor, and he who has little and is with it content, that is rich.

The most direct method of determining horse power—stand near and tickle his hind legs with a brier.

Sure to make you come up to the scratch—The itch.

The girls that are constant to the typos—Ems.

Why is the letter L like a calf's tail?—Because it is at the end of veal.

If the common people cannot discover your virtues, get rich, and they will be sure to discover all you have—and as many more.

CHICAGO ADVERTISEMENTS.

Official Paper of the City.

The Money Panic.

The determination of the Chicago bankers to throw out the bills of seven of their banks, and the call of the state auditor for additional securities, together with the howl down south about secession, produced considerable uneasiness here in relation to money matters. But our business men, generally, have come to the sensible conclusion that there is no occasion for alarm, so far as our own banks are concerned, and business moves on as usual. The paper of all Illinois banks is received for goods, except that of the seven supposed lame ducks, which is taken by some at a discount.

If exchange cannot be purchased at a fair rate the best thing that can be done is for our dealers to purchase flour, wheat, pork, etc., and send it forward. At present prices the products of the country will be a safe medium of paying debts in New York, and in this way bank bills can be kept in circulation without drawing for the specie. This will be a good way to regulate the exchanges, and will soon tell upon the brokers, who will find their occupation gone unless they sell exchange at a reasonable rate.

The Chicago Tribune of to-day says:

The stagnation in financial circles to-day, [Wednesday,] has been if anything more marked than during any time for the past week. The banks have been more indisposed to sell exchange, and some of them utterly refuse to accommodate on any terms. The reason given is that they have none. The rates to customers are 5a6 per cent, and a few charge 10. The street rates 8 to 10 per cent. The high price of exchange, pork paper, &c., must ere long relieve the market, though no one need look for low rates for some time to come.

Gold, buying at 5a8 per cent; selling 10 premium. The demand to-day has fallen off considerably.

There is a much better feeling in regard to the rejected Illinois currency. Several of our merchants advertise to take it at par for goods, and we hear of a proposition on the part of our bankers, with a few exceptions, and some of our railways, to take it as heretofore.

It was reported in Chicago yesterday that the New York banks would suspend specie payment to-day, and the rumor was current on our streets to-day, that they had suspended, but telegraphic despatches of to-day do not allude to it. Yesterday afternoon despatches to Chicago show an improved Stock Market on Wall street.

Trouble in Kansas.

There are accounts from Leavenworth of trouble among the settlers in southern Kansas, in consequence of the land sales.—Capt. Montgomery is reported to be at the head of 500 men, who are driving off the federal officers at Fort Scott, and those who are supposed to sympathise with them.—Merchants are removing their goods from that quarter. The accounts are from federal officials, and are evidently got up to produce excitement, as they charge the difficulty upon "abolitionists, with arms newly imported from Boston, &c." The persistence of the government in selling the lands at a time when the people are utterly unable to pay for them, is cause enough for an outbreak.

MR. LINCOLN IN CHICAGO.—Hon. Abraham Lincoln and lady arrived in Chicago, yesterday, and are at the Tremont house. Hon. Hannibal Hamlin was expected to-day.

VICTOR EMANUEL AND GARIBALDI IN NAPLES.—The steamship Palestine has arrived bringing intelligence that Victor Emanuel arrived at Naples on the morning of the 17th inst., accompanied by Garibaldi.—They proceeded together to the chathedral, and afterwards to the royal palace, where great festivities took place in spite of bad weather. The Pope's army is to be dissolved.

MELANCHOLY ACCIDENT.—By a private letter from Lodi we have the particulars of a melancholy accident which occurred in that town on the 14th inst., to Henry Palmer, son of Judge Palmer, causing his instant death. He was attempting to cover one of the Judge's horses with a buffalo robe when the animal became frightened and started to run. He caught the horse by the bit, was thrown down and his skull broken in a most shocking manner.—Young Henry was very much esteemed in the community, and his sudden death cast a gloom over the village.—*Portage City Record.*

HANNIBAL HAMLIN.—The Hon. W. S. Lindsay, who is now in this country as the representative of the British shipping interests, paid the following deserved tribute to Mr. Hamlin in his speech before the Philadelphia Board of Trade:

"He said he had met most of the Governors of the States through which he had passed, and enjoyed interviews with a very large number of prominent men in the country, in particular the Hon. Hannibal Hamlin of Maine. He spent an afternoon at the quiet residence of this gentleman, and felt bound to say that for comprehensive knowledge of those commercial and maritime questions in which both nations are interested, he had met no gentleman so fully versed as the gentleman just elected Vice-President of the United States."

Censure is most effectual when mixed with praise. So, when a fault is discovered, it is well to look up a virtue to bear it company.

When did the ocean first bear grain? In the time of Ce-crops.

New Compromises.

After the south has exhausted the patience of the northern people in frantic opposition to the election of Lincoln, by revolutionary speeches and political demonstrations, and just as the reaction in the public mind is about set in, new compromises will be proposed.

They will ask us to protect slaveholding in the territories, permit slaveholders to sojourn in the free states with their slaves as long as they please, catch their runaway negroes for them, and abolish all state laws against kidnapping. If we will do all this, under the name of compromise, the chivalry will not leave the Union. That is the next entertainment to which we shall be invited.

Northern doughfaces already begin to prepare the public mind for the programme by ringing the changes upon the wrongs which have been inflicted upon the *dear* South, and by pointing to the consequences which we have brought upon ourselves in the shape of a commercial panic, because we are not willing to let the south do as they please, in the disposal of the power of the general government.

While they ask these things of us and insist upon the "equality of the States," they make no proposition to protect the *citizens* of the Northern States, in the South. While they demand immunity, and free ingress and egress for their *Slaves* among us. American *citizens* are forbidden to travel in the South, if they are suspected of differing from them in opinion.

With the experience of the last few years, we think Northern freemen are in no temper to treat with the South upon the basis of compromise. We have put forth no sentiment in relation to Slavery in our Republican platform which can be compromised without yielding a vital principle. When we conceded the right of each State to regulate its own domestic institutions, in its own way, without interference from other States, we went as far as we can go. We cannot be made to say that the natural condition of each territory is that of Slavery—we never will protect Slavery by the powers of the general government—and we never can be compelled to say or to believe that Slavery is right anywhere.

This latter point is what most galls the slaveholder—to be told that the institution upon which he bases his politics and religion, is a *moral wrong*, leading to barbarism, in every community which supports it, is the point which produces the extreme sensitiveness of the Slaveholder. No compromise can ever wipe out this truth. It is immutable and eternal, and the South may make up its mind to submit to this verdict from civilized man in all countries. They have no right to complain of us because it is so—it is the will of the Maker of all things, and cannot be altered, though every white man in America should resolve that it is not so.

The Rationale of the Panic.

That our readers may understand a little more precisely why and how the present financial crisis has occurred, they must understand the process by which the business of the cotton states is transacted. It differs entirely from that to which we are accostomed in the northern states, and the worst feature of it is that any derangement of credit in Charleston, Mobile or New Orleans is felt with great severity througout the entire region dependent upon them for supplies and export facilities.

The planter consigns his rice or cotton to some factor, who disposes of it, and after purchasing such articles as were ordered at the time of advance of the consignment, sends an account of sales and disbursements and balance on hand to his principal, who draws on him when he needs money, till it is exhausted. The purchaser of the cotton then either ships it, consigned to some house abroad and sells the draft against it with the bills of lading attached to the banks of foreign agents, or sells the cotton itself to the same parties. Bills drawn on Liverpool or London are are chiefly at sixty days' sight, with the expectation that the shipment will be received and sold before they mature. The present distrust of bills drawn by the Charleston banks arise from the fear that, owing to the insurrectionary action on the part of the mob, Charleston may be declared no longer a port of entry, and be blockaded, so that the cotton could not go forward; when, of course, their bills would be returned, with a heavy damage against the endorsers.

If secession or any attempt to seize the forts should take place, the port would be closed, the banks would not buy either rice, cotton or bills; the planter could not sell his crop nor buy his supplies; the merchant could neither sell his goods nor get his pay for those already sold on credit, and universal bankruptcy would prevail throughout the state with the greater severity this year, that the corn crop is so deficient that many planters find it will take all they receive for their cotton to purchase food for their hands till the next crop comes in. When to this is added the heavy taxation inseparable from the maintanance of large bodies of troops and purchases of war *material*, it is evident that the immediate effect must be to derange the vital circulation of the slave states and subject them to deplorable losses, which the north must share in proportion to the extent of its ordinary commercial transactions with that section.

It is to prevent this interruption of commercial circulation that our banks and business men are making great efforts, and we may add great sacrifices, every day. They may accomplish much, but we fear they cannot prevent a gradual but steady depression of values for some time yet to come. There is a very large body of negroes to be fed at the south, at an extraordinary expense. That cost will increase from day to day until the new crop comes in, and, till the extent of this extraordinary expense can be estimated, the north cannot settle up with the South, and settling up is a process which must precede any permanent arrest of a declining market. Our people must not, therefore, look to any immediate improvement in our financial condition. The clouds in the political horizon will be speedily disposed of; but the financial atmosphere cannot be so easily cleared. The commercial relations of the north cannot be restored until both sections agree upon terms for a mutual discharge, a result which cannot be attained until not only the balance of indebtedness, but the resources for its payment are pretty accurately ascertained.—*N. Y. Post.*

Pennsylvania made the first turnpike road in the United States, laid the first railroad, established the first water works, ran the first locomotive, established the first hospital, the first law school, the first public museum, the first hall of music, and the first library in the world opened freely to all—good for Pennsylvania!

Telegraphic.

REPORTED FOR THE DAILY GAZETTE.

BY WISCONSIN STATE TELEGRAPH LINE,
Office in Union Passenger Depot.

NEW YORK, 22.

The association of banks yesterday agreed to issue certificates of deposit in denomination of $5,000 and $10,000 bearing 7 per cent interest, and based on bills receivable at U. S. Treasury notes or stocks of the State of New York, said certificates not to exceed five millions of dollars, and to be used in the settlement of balances at the clearing house for 30 days, and to be received by creditor banks daily in such proportion as they bear to the aggregate amount of the debtor ballances paid at the clearing house. They also resolved that the specie in all the banks, amounting to about twenty million dollars, be treated as common funds for mutual aid and protection, in view of liberal expansion; also that after the first of February next, every bank in the association shall have on hand at all times, an amount of specie equal to one fourth of its liabilities; and any bank falling below that proportion shall not make loans or discounts, until its position is re-established.

BALTIMORE, Nov. 21.—The Bank Presidents of this city held a meeting this afternoon and resolved to suspend specie payments to-morrow morning.

AUGUSTA, Ga., Nov. 21—Both branches of the Georgia Legislature have unanimously passed a bill to call a State Convention.

PHILADELPHIA, Nov. 21.—The brokers of this city refuse to take the notes of the Bank of Commerce, at Erie, and the Pittston Bank.

WASHINGTON, Nov. 21.

The message will be presented to Congress on the third day of the session. Advance copies will be sent north as far as Boston, and south as far as Richmond.

A Tribune despatch says Judge Greenwood, commissioner of Indian affairs, has returned from a trip to Arkansas. He states that three-fourths of the people there are opposed to any disunion movement until some unconstitutional act has been committed, justifying resistance.

A Herald despatch says that Senator Chandler does not desire a seat in Lincoln's Cabinet; also, that Secretary Thompson had a free consultation with Mr. Corwin as to the measures of the present and coming administration to avert the impending danger. The same correspondent says that information has been received there that nineteen-twentieths of the large slaveholders of the cotton states, who do not however compose a tenth of the voters there, deprecate the secession movement.

FORT KEARNEY, Nov. 22.

The pony express which left San Francisco on the evening of the 10th, passed here at 4 o'clock this morning, but left no despatches for the associated press. This pony is over twenty-four hours behind time, owing to bad storms in the mountains.

The wind here is east of north, and blowing a gale, accompanied with fine, dry snow. The thermometer marks 29° and is descending.

The few Pike's Peakers who are now on the road in this vicinity, have pitched their tents and anchored them to await the abatement of the storm, it being impossible to travel with ox teams and wagon in such boisterous weather.

NEW ORLEANS, Nov. 21.

It is reported that several produce houses have suspended to-day. Meetings are being held in Texas, calling on the governer to convene the legislature, to consider the proper method of vindicating the rights and honor of Texas.

The bank presidents meet at noon to-day to consider the propriety of suspension.

WASHINGTON, Nov. 22.

The Washington banks suspended this morning.

WASHINGTON, Nov. 22.

The District of Columbia banks suspended specie payment to-day. There is no panic. The father of Gen. Walbridge of N. Y., died this morning after a suffering illness of several weeks.

NEW YORK, Nov. 21.

Thomson Brothers state that the currency panic to-day has been equal to that of 1857. They quote all bills south of Washington at 70a75 per cent discount. Illinois and Wisconsin 15 per cent discount. Ohio, Indiana, Kentucky and Canada 3a5 discount. New York state and New England 1-2 discount. Maryland and Pennsylvania 1a2. The Post says the presidents of the leading banks are discussing a project for relieving the community by issuing scrip based on bills receivable of United States stocks and other approved collaterals, to pass in liquidation of bills to each. The scrip to bear 7 per cent interest. The banks thus hope to be soon in a position to meet the wants of their dealers. An expansion in loans of several millions is looked for this week.

MARRIED.

In Janesville, Nov. 21st, 1860, by Rev. E. J. Goodspeed, HENRY HEMMING, of the firm of Hemming & Thomas, and Miss ANNA AKERLY.

Also, by the same, on the same day, GEORGE MORRIS PIERCE, late of California, and Miss ANNA COMSTOCK, of Rock.

Also, by the same, Nov. 22d WILLIAM SKELLY, of this city, and Miss MARY MELVINA WILLIAMS, of the town of Janesville.

In Whitewater, Tuesday, the 20th inst., by the Rev. M. P. Kinney, CHARLES R. GIBBS, esq., of this city, and Mrs. F. BIGGS, of Whitewater.

DIED.

At his residence in Lima Center, Wis., Nov. 12th, Dr. L. M COON, aged 30 years.

By this melancholy event his family and friends and the community at large have met with an irreparable loss. All will indeed miss his hopeful and health inspiring visits to their bedsides, and the afflicted will miss his sympathizing voice. As a physician and surgeon he had deservedly won a high reputation; and he endeared himself to all the friends of education by his earnest and active zeal in that cause; but above all as a husband, parent and man he was kind, affectionate, honest and upright. His family are specially deserving of the sympathy of the community, as this bereavment deprives a crippled son of his chief support and protection. [COM.

In Watertown, New York, Nov. 9th, at the residence of W. F. Otterson, of congestion of the stomach, EVA IMOGEN, 2d daughter of Wilson A. and Caroline E. Reed, aged 7 years, 6 months and 2 days.

Eva was a child of remarkable intelligence and vivacity of mind, and her face always wore a happy smile, making her a favorite with all who knew her. But "Death loves a shining mark," and with unrelenting hand has borne our treasure from our arms. Yet we do not fear for Eva; our child has gone, simple and trusting, in her childish innocence into the hands of our all-wise Father. Of such we know is the kingdom of Heaven.

Softly as the golden sun
Sinks behind the purple west,
Our darling Eva passed away,
To sleep her long and quiet rest. [COM.

Official Paper of the City.

The Money Panic.

The determination of the Chicago bankers to throw out the bills of seven of their banks, and the call of the state auditor for additional securities, together with the howl down south about secession, produced considerable uneasiness here in relation to money matters. But our business men, generally, have come to the sensible conclusion that there is no occasion for alarm, so far as our own banks are concerned, and business moves on as usual. The paper of all Illinois banks is received for goods, except that of the seven supposed lame ducks, which is taken by some at a discount.

If exchange cannot be purchased at a fair rate the best thing that can be done is for our dealers to purchase flour, wheat, pork, etc., and send it forward. At present prices the products of the country will be a safe medium of paying debts in New York, and in this way bank bills can be kept in circulation without drawing for the specie. This will be a good way to regulate the exchanges, and will soon tell upon the brokers, who will find their occupation gone unless they sell exchange at a reasonable rate.

The Chicago Tribune of to-day says:

The stagnation in financial circles today, [Wednesday,] has been if anything more marked than during any time for the past week. The banks have been more indisposed to sell exchange, and some of them utterly refuse to accommodate on any terms. The reason given is that they have none. The rates to customers are 5a6 per cent, and a few charge 10. The street rates 8 to 10 per cent. The high price of exchange, pork paper, &c., must ere long relieve the market, though no one need look for low rates for some time to come.

Gold, buying at 5a8 per cent; selling 10 premium. The demand to-day has fallen off considerably.

There is a much better feeling in regard to the rejected Illinois currency. Several of our merchants advertise to take it at par for goods, and we hear of a proposition on the part of our bankers, with a few exceptions, and some of our railways, to take it as heretofore.

It was reported in Chicago yesterday that the New York banks would suspend specie payment to-day, and the rumor was current on our streets to day, that they had suspended, but telegraphic despatches of today do not allude to it. Yesterday afternoon despatches to Chicago show an improved Stock Market on Wall street.

Trouble in Kansas.

There are accounts from Leavenworth of trouble among the settlers in southern Kansas, in consequence of the land sales.—Capt. Montgomery is reported to be at the head of 500 men, who are driving off the federal officers at Fort Scott, and those who are supposed to sympathise with them.—Merchants are removing their goods from that quarter. The accounts are from federal officials, and are evidently got up to produce excitement, as they charge the difficulty upon "abolitionists, with arms newly imported from Boston, &c." The persistence of the government in selling the lands at a time when the people are utterly unable to pay for them, is cause enough for an outbreak.

CONGRESSMEN TO BE YET ELECTED.—The following states, which have not chosen members of the next congress will do so at their state elections next year, at the dates here given:

Alabama	Aug.	5, 1861
California	Sept.	4, 1861

MR. LINCOLN IN CHICAGO.—Hon. Abraham Lincoln and lady arrived in Chicago, yesterday, and are at the Tremont house. Hon. Hannibal Hamlin was expected to-day.

VICTOR EMANUEL AND GARIBALDI IN NAPLES.—The steamship Palestine has arrived bringing intelligence that Victor Emanual arrived at Naples on the morning of the 17th inst., accompanied by Garibaldi.—They proceeded together to the chathedral, and afterwards to the royal palace, where great festivities took place in spite of bad weather. The Pope's army is to be disso ved.

MELANCHOLY ACCIDENT.—By a private letter from Lodi we have the particulars of a melancholy accident which occurred in that town on the 14th inst., to Henry Palmer, son of Judge Palmer, causing his instant death. He was attempting to cover one of the Judge's horses with a buffalo robe when the animal became frightened and started to run. He caught the horse by the bit, was thrown down and his skull broken in a most shocking manner.—Young Henry was very much esteemed in the community, and his sudden death cast a gloom over the village.—*Portage City Record.*

HANNIBAL HAMLIN.—The Hon. W. S. Lindsay, who is now in this country as the representative of the British shipping interests, paid the following deserved tribute to Mr. Hamlin in his speech before the Philadelphia Board of Trade:

"He said he had met most of the Governors of the States through which he had passed, and enjoyed interviews with a very large number of prominent men in the country, in particular the Hon. Hannibal Hamlin of Maine. He spent an afternoon at the quiet residence of this gentleman, and felt bound to say that for comprehensive knowledge of those commercial and maritime questions in which both nations are interested, he had met no gentleman so fully versed as the gentleman just elected Vice-President of the United States."

Censure is most effectual when mixed with praise. So, when a fault is discovered, it is well to look up a virtue to bear it company.

When did the ocean first bear grain? In the time of Ce-crops.

New Compromises.

After the south has exhausted the patience of the northern people in frantic opposition to the election of Lincoln, by revolutionary speeches and political demonstrations, and just as the reaction in the public mind is about set in, new compromises will be proposed.

They will ask us to protect slaveholding in the territories, permit slaveholders to sojourn in the free states with their slaves as long as they please, catch their runaway negroes for them, and abolish all state laws against kidnapping. If we will do all this, under the name of compromise, the chivalry will not leave the Union. That is the next entertainment to which we shall be invited.

Northern doughfaces already begin to prepare the public mind for the programme by ringing the changes upon the wrongs which have been inflicted upon the *dear* South, and by pointing to the consequences which we have brought upon ourselves in the shape of a commercial panic, because we are not willing to let the south do as they please, in the disposal of the power of the general government.

While they ask these things of us and insist upon the "equality of the States," they make no proposition to protect the *citizens* of the Northern States, in the South. While they demand immunity, and free ingress and egress for their *Slaves* among us. American *citizens* are forbidden to travel in the South, if they are suspected of differing from them in opinion.

With the experience of the last few years, we think Northern freemen are in no temper to treat with the South upon the basis of compromise. We have put forth no sentiment in relation to Slavery in our Republican platform which can be compromised without yielding a vital principle. When we conceded the right of each State to regulate its own domestic institutions, in its own way, without interference from other States, we went as far as we can go. We cannot be made to say that the natural condition of each territory is that of Slavery—we never will protect Slavery by the powers of the general government—and we never can be compelled to say or to believe that Slavery is right anywhere.

This latter point is what most galls the slaveholder—to be told that the institution upon which he bases his politics and religion, is a *moral wrong*, leading to barbarism, in every community which supports it, is the point which produces the extreme sensitiveness of the Slaveholder. No compromise can ever wipe out this truth. It is immutable and eternal, and the South may make up its mind to submit to this verdict from civilized man in all countries. They have no right to complain of us because it is so—it is the will of the Maker of all things, and cannot be altered, though every white man in America should resolve that it is not so.

The Rationale of the Panic.

That our readers may understand a little more precisely why and how the present financial crisis has occurred, they must understand the process by which the business of the cotton states is transacted. It differs entirely from that to which we are accostomed in the northern states, and the worst feature of it is that any derangement of credit in Charleston, Mobile or New Orleans is felt with great severity throughout the entire region dependent upon them for supplies and export facilities.

The planter consigns his rice or cotton to some factor, who disposes of it, and after purchasing such articles as were ordered at the time of advance of the consignment, sends an account of sales and disbursements and balance on hand to his principal, who draws on him when he needs money, till it is exhausted. The purchaser of the cotton then either ships it, consigned to some house abroad and sells the draft against it with the bills of lading attached to the banks of foreign agents, or sells the cotton itself to the same parties. Bills drawn on Liverpool or London are are chiefly at sixty days' sight, with the expectation that the shipment will be received and sold before they mature. The present distrust of bills drawn by the Charleston banks arise from the fear that, owing to the insurrectionary action on the part of the mob, Charleston may be declared no longer a port of entry, and be blockaded, so that the cotton could not go forward; when, of course, their bills would be returned, with a heavy damage against the endorsers.

If secession or any attempt to seize the forts should take place, the port would be closed, the banks would not buy either rice, cotton or bills; the planter could not sell his crop nor buy his supplies; the merchant could neither sell his goods nor get his pay for those already sold on credit, and universal bankruptcy would prevail throughout the state with the greater severity this year, that the corn crop is so deficient that many planters find it will take all they receive for their cotton to purchase food for their hands till the next crop comes in. When to this is added the heavy taxation inseparable from the maintanance of large bodies of troops and purchases of war *material*, it is evident that the immediate effect must be to derange the vital circulation of the slave states and subject them to deplorable losses, which the north must share in proportion to the extent of its ordinary commercial transactions with that section.

It is to prevent this interruption of commercial circulation that our banks and business men are making great efforts, and we may add great sacrifices, every day. They may accomplish much, but we fear they cannot prevent a gradual but steady depression of values for some time yet to come. There is a very large body of negroes to be fed at the south, at an extraordinary expense. That cost will increase from day to day until the new crop comes in, and, till the extent of this extraordinary expense can be estimated, the north cannot settle up with the South, and settling up is a process which must precede any permanent arrest of a declining market. Our people must not, therefore, look to any immediate improvement in our financial condition. The clouds in the political horizon will be speedily disposed of; but the financial atmosphere cannot be so easily cleared. The commercial relations of the north cannot be restored until both sections agree upon terms for a mutual discharge, a result which cannot be attained until not only the balance of indebtedness, but the resources for its payment are pretty accurately ascertained.—*N. Y. Post.*

Telegraphic.

REPORTED FOR THE DAILY GAZETTE.

BY WISCONSIN STATE TELEGRAPH LINE,
Office in Union Passenger Depot.

NEW YORK, 22.

The association of banks yesterday agreed to issue certificates of deposit in denomination of $5,000 and $10,000 bearing 7 per cent interest, and based on bills receivable at U. S. Treasury notes or stocks of the State of New York, said certificates not to exceed five millions of dollars, and to be used in the settlement of balances at the clearing house for 30 days, and to be received by creditor banks daily in such proportion as they bear to the aggregate amount of the debtor ballances paid at the clearing house. They also resolved that the specie in all the banks, amounting to about twenty million dollars, be treated as common funds for mutual aid and protection, in view of liberal expansion; also that after the first of February next, every bank in the association shall have on hand at all times, an amount of specie equal to one fourth of its liabilities; and any bank falling below that proportion shall not make loans or discounts, until its position is re-established.

BALTIMORE, Nov. 21.—The Bank Presidents of this city held a meeting this afternoon and resolved to suspend specie payments to-morrow morning.

AUGUSTA, Ga., Nov. 21—Both branches of the Georgia Legislature have unanimously passed a bill to call a State Convention.

PHILADELPHIA, Nov. 21.—The brokers of this city refuse to take the notes of the Bank of Commerce, at Erie, and the Pitston Bank.

WASHINGTON, Nov. 21.

The message will be presented to Congress on the third day of the session. Advance copies will be sent north as far as Boston, and south as far as Richmond.

A Tribune despatch says Judge Greenwood, commissioner of Indian affairs, has returned from a trip to Arkansas. He states that three-fourths of the people there are opposed to any disunion movement until some unconstitutional act has been committed, justifying resistance.

A Herald despatch says that Senator Chandler does not desire a seat in Lincoln's Cabinet; also, that Secretary Thompson had a free consultation with Mr. Corwin as to the measures of the present and coming administration to avert the impending danger. The same correspondent says that information has been received there that nineteen-twentieths of the large slaveholders of the cotton states, who do not however compose a tenth of the voters there, deprecate the secession movement.

FORT KEARNEY, Nov. 22.

The pony express which left San Francisco on the evening of the 10th, passed here at 4 o'clock this morning, but left no despatches for the associated press. This pony is over twenty-four hours behind time, owing to bad storms in the mountains.

The wind here is east of north, and blowing a gale, accompanied with fine, dry snow. The thermometer marks 29° and is descending.

The few Pike's Peakers who are now on the road in this vicinity, have pitched their tents and anchored them to await the abatement of the storm, it being impossible to travel with ox teams and wagon in such boisterous weather.

WHEELING, Va., Nov. 22.

Banks of this city suspended specie payment this morning. They are in undoubted condition, and will keep their notes good currency.

NEW ORLEANS, Nov. 21.

It is reported that several produce houses have suspended to-day. Meetings are being held in Texas, calling on the governer to convene the legislature, to consider the proper method of vindicating the rights and honor of Texas.

PHILADELPHIA, Nov. 22.

The bank presidents meet at noon to day to consider the propriety of suspension.

WASHINGTON, Nov. 22.

The Washington banks suspended this morning.

WASHINGTON, Nov. 22.

The District of Columbia banks suspended specie payment to-day. There is no panic. The father of Gen. Walbridge of N. Y., died this morning after a suffering illness of several weeks.

NEW YORK, Nov. 21.

Thomson Brothers state that the currency panic to-day has been equal to that of 1857. They quote all bills south of Washington at 70a75 per cent discount. Illinois and Wisconsin 15 per cent discount. Ohio, Indiana, Kentucky and Canada 3a5 discount. New York state and New England 1-2 discount. Maryland and Pennsylvania 1a2. The Post says the presidents of the leading banks are discussing a project for relieving the community by issuing scrip based on bills receivable of United States stocks and other approved collaterals, to pass in liquidation of bills to each. The scrip to bear 7 per cent interest. The banks thus hope to be soon in a position to meet the wants of their dealers. An expansion in loans of several millions is looked for this week.

MARRIED.

In Janesville, Nov. 21st, 1860, by Rev. E J. Goodspeed, HENRY HEMMING, of the firm of Hemming & Thomas, and Miss ANNA AKERLY.

Also, by the same, on the same day, GEORGE MORRIS PIERCE, late of California, and Miss ANNA COMSTOCK, of Rock.

Also, by the same, Nov. 22d WILLIAM SKELLY, of this city, and Miss MARY MELVINA WILLIAMS, of the town of Janesville

In Whitewater, Tuesday, the 20th inst., by the Rev. M. P. Kinney, CHARLES H GIBBS, esq., of this city, and Mrs. F. BIRGE, of Whitewater.

DIED.

At his residence in Lima Center, Wis, Nov. 12th, Dr. L. M COON, aged 30 years.

By this melancholy event his family and friends and the community at large have met with an irreparable loss. All will indeed miss his hopeful and health inspiring visits to their bedsides, and the afflicted will miss his sympathizing voice. As a phyalcian and surgeon he had deservedly won a high reputation; and he endeared himself to all the friends of education by his earnest and active zeal in that cause; but above all as a husband, parent and man he was kind, affectionate, honest and upright. His family are specially destroying of the sympathy of the community, as this bereavment deprives a crippled son of his chief support and protection. [Com.

In Watertown, New York, Nov. 9th, at the residence of W. F. Otterson, of congestion of the stomach, EVA LMOGEN, 2d daughter of Wilson A. and Caroline E. Heed, aged 7 years, 6 months and 2 days.

Eva was a child of remarkable intelligence and vivacity of mind, and her face always wore a happy smile, making her a favorite with all who knew her. But "Death loves a shining mark," and with unrelenting hand has borne our treasure from our arms. Yet we do not fear for Eva; our child has gone, simple and trusting, in her childish innocence into the hands of our all-wise Father. Of such we know is the kingdom of Heaven.

Softly as the golden sun
Sinks behind the purple west,
Our darling Eva passed away,
To sleep her long and quiet rest. [Com.

The Money Panic.

The determination of the Chicago bankers to throw out the bills of seven of their banks, and the call of the state auditor for additional securities, together with the howl down south about secession, produced considerable uneasiness here in relation to money matters. But our business men, generally, have come to the sensible conclusion that there is no occasion for alarm, so far as our own banks are concerned, and business moves on as usual. The paper of all Illinois banks is received for goods, except that of the seven supposed lame ducks, which is taken by some at a discount.

If exchange cannot be purchased at a fair rate the best thing that can be done is for our dealers to purchase flour, wheat, pork, etc., and send it forward. At present prices the products of the country will be a safe medium of paying debts in New York, and in this way bank bills can be kept in circulation without drawing for the specie. This will be a good way to regulate the exchanges, and will soon tell upon the brokers, who will find their occupation gone unless they sell exchange at a reasonable rate.

The Chicago Tribune of to-day says:

The stagnation in financial circles today, [Wednesday,] has been if anything more marked than during any time for the past week. The banks have been more indisposed to sell exchange, and some of them utterly refuse to accommodate on any terms. The reason given is that they have none. The rates to customers are ⅝a6 per cent, and a few charge 10. The street rates 8 to 10 per cent. The high price of exchange, pork paper, &c., must ere long relieve the market, though no one need look for low rates for some time to come.

Gold, buying at 5a8 per cent; selling 10 premium. The demand to-day has fallen off considerably.

There is a much better feeling in regard to the rejected Illinois currency. Several of our merchants advertise to take it at par for goods, and we hear of a proposition on the part of our bankers, with a few exceptions, and some of our railways, to take it as heretofore.

It was reported in Chicago yesterday that the New York banks would suspend specie payment to-day, and the rumor was current on our streets to-day, that they had suspended, but telegraphic despatches of to-day do not allude to it. Yesterday afternoon despatches to Chicago show an improved Stock Market on Wall street.

Trouble in Kansas.

There are accounts from Leavenworth of trouble among the settlers in southern Kansas, in consequence of the land sales.—Capt. Montgomery is reported to be at the head of 500 men, who are driving off the federal officers at Fort Scott, and those who are supposed to sympathise with them.—Merchants are removing their goods from that quarter. The accounts are from federal officials, and are evidently got up to produce excitement, as they charge the difficulty upon "abolitionists, with arms newly imported from Boston, &c." The persistence of the government in selling the lands at a time when the people are utterly unable to pay for them, is cause enough for an outbreak.

MR. LINCOLN IN CHICAGO.—Hon. Abraham Lincoln and lady arrived in Chicago, yesterday, and are at the Tremont house. Hon. Hannibal Hamlin was expected to-day.

VICTOR EMANUEL AND GARIBALDI IN NAPLES.—The steamship Palestine has arrived bringing intelligence that Victor Emanuel arrived at Naples on the morning of the 17th inst., accompanied by Garibaldi.—They proceeded together to the cathedral, and afterwards to the royal palace, where great festivities took place in spite of bad weather. The Pope's army is to be dissolved.

MELANCHOLY ACCIDENT.—By a private letter from Lodi we have the particulars of a melancholy accident which occurred in that town on the 14th inst., to Henry Palmer, son of Judge Palmer, causing his instant death. He was attempting to cover one of the Judge's horses with a buffalo robe when the animal became frightened and started to run. He caught the horse by the bit, was thrown down and his skull broken in a most shocking manner.—Young Henry was very much esteemed in the community, and his sudden death cast a gloom over the village.—*Portage City Record.*

HANNIBAL HAMLIN.—The HON. W. S. Lindsay, who is now in this country as the representative of the British shipping interests, paid the following deserved tribute to Mr. Hamlin in his speech before the Philadelphia Board of Trade:

"He said he had met most of the Governors of the States through which he had passed, and enjoyed interviews with a very large number of prominent men in the country, in particular the Hon. Hannibal Hamlin of Maine. He spent an afternoon at the quiet residence of this gentleman, and felt bound to say that for comprehensive knowledge of those commercial and maritime questions in which both nations are interested, he had met no gentleman so fully versed as the gentleman just elected Vice-President of the United States."

Censure is most effectual when mixed with praise. So, when a fault is discovered, it is well to look up a virtue to bear it company.

When did the ocean first bear grain? In the time of Ce-crops.

New Compromises.

After the south has exhausted the patience of the northern people in frantic opposition to the election of Lincoln, by revolutionary speeches and political demonstrations, and just as the reaction in the public mind is about set in, new compromises will be proposed.

They will ask us to protect slaveholding in the territories, permit slaveholders to sojourn in the free states with their slaves as long as they please, catch their runaway negroes for them, and abolish all state laws against kidnapping. If we will do all this, under the name of compromise, the chivalry will not leave the Union. That is the next entertainment to which we shall be invited.

Northern doughfaces already begin to prepare the public mind for the programme by ringing the changes upon the wrongs which have been inflicted upon the *dear* South, and by pointing to the consequences which we have brought upon ourselves in the shape of a commercial panic, because we are not willing to let the south do as they please, in the disposal of the power of the general government.

While they ask these things of us and insist upon the "equality of the States," they make no proposition to protect the *citizens* of the Northern States, in the South. While they demand immunity, and free ingress and egress for their *Slaves* among us. American *citizens* are forbidden to travel in the South, if they are suspected of differing from them in opinion.

With the experience of the last few years, we think Northern freemen are in no temper to treat with the South upon the basis of compromise. We have put forth no sentiment in relation to Slavery in our Republican platform which can be compromised without yielding a vital principle. When we conceded the right of each State to regulate its own domestic institutions, in its own way, without interference from other States, we went as far as we can go. We cannot be made to say that the natural condition of each territory is that of Slavery—we never will protect Slavery by the powers of the general government—and we never can be compelled to say or to believe that Slavery is right anywhere.

This latter point is what most galls the slaveholder—to be told that the institution upon which he bases his politics and religion, is a *moral wrong*, leading to barbarism, in every community which supports it, is the point which produces the extreme sensitiveness of the Slaveholder. No compromise can ever wipe out this truth. It is immutable and eternal, and the South may make up its mind to submit to this verdict from civilized man in all countries. They have no right to complain of us because it is so—it is the will of the Maker of all things, and cannot be altered, though every white man in America should resolve that it is not so.

The Rationale of the Panic.

That our readers may understand a little more precisely why and how the present financial crisis has occurred, they must understand the process by which the business of the cotton states is transacted. It differs entirely from that to which we are accostomed in the northern states, and the worst feature of it is that any derangement of credit in Charleston, Mobile or New Orleans is felt with great severity througout the entire region dependent upon them for supplies and export facilities.

The planter consigns his rice or cotton to some factor, who disposes of it, and after purchasing such articles as were ordered at the time of advance of the consignment, sends an account of sales and disbursements and balance on hand to his principal, who draws on him when he needs money, till it is exhausted. The purchaser of the cotton then either ships it, conisgned to some house abroad and sells the draft against it with the bills of lading attached to the banks of foreign agents, or sells the cotton itself to the same parties. Bills drawn on Liverpool or London are are chiefly at sixty days' sight, with the expectation that the shipment will be received and sold before they mature. The present distrust of bills drawn by the Charleston banks arise from the fear that, owing to the insurrectionary action on the part of the mob, Charleston may be declared no longer a port of entry, and be blockaded, so that the cotton could not go forward; when, of course, their bills would be returned, with a heavy damage against the endorsers.

If secession or any attempt to seize the forts should take place, the port would be closed, the banks would not buy either rice, cotton or bills; the planter could not sell his crop nor buy his supplies; the merchant could neither sell his goods nor get his pay for those already sold on credit, and universal bankruptcy would prevail throughout the state with the greater severity this year, that the corn crop is so deficient that many planters find it will take all they receive for their cotton to purchase food for their hands till the next crop comes in. When to this is added the heavy taxation inseparable from the maintanance of large bodies of troops and purchases of war *material*, it is evident that the immediate effect must be to derange the vital circulation of the slave states and subject them to deplorable losses, which the north must share in proportion to the extent of its ordinary commercial transactions with that section.

It is to prevent this interruption of commercial circulation that our banks and business men are making great efforts, and we may add great sacrifices, every day. They may accomplish much, but we fear they cannot prevent a gradual but steady depression of values for some time yet to come. There is a very large body of negroes to be fed at the south, at an extraordinary expense. That cost will increase from day to day until the new crop comes in, and, till the extent of this extraordinary expense can be estimated, the north cannot settle up with the South, and settling up is a process which must precede any permanent arrest of a declining market. Our people must not, therefore, look to any immediate improvement in our financial condition. The clouds in the political horizon will be speedily disposed of; but the financial atmosphere cannot be so easily cleared. The commercial relations of the north cannot be restored until both sections agree upon terms for a mutual discharge, a result which cannot be attained until not only the balance of indebtedness, but the resources for its payment are pretty accurately ascertained.—*N. Y. Post.*

REPORTED FOR THE DAILY GAZETTE.

BY WISCONSIN STATE TELEGRAPH LINE,
Office in Union Passenger Depot.

NEW YORK, 22.

The association of banks yesterday agreed to issue certificates of deposit in denomination of $5,000 and $10,000 bearing 7 per cent interest, and based on bills receivable at U. S. Treasury notes or stocks of the State of New York, said certificates not to exceed five millions of dollars, and to be used in the settlement of balances at the clearing house for 30 days, and to be received by creditor banks daily in such proportion as they bear to the aggregate amount of the debtor ballances paid at the clearing house. They also resolved that the specie in all the banks, amounting to about twenty million dollars, be treated as common funds for mutual aid and protection, in view of liberal expansion; also that after the first of February next, every bank in the association shall have on hand at all times, an amount of specie equal to one fourth of its liabilities; and any bank failing below that proportion shall not make loans or discounts, until its position is re-established.

BALTIMORE, Nov. 21.—The Bank Presidents of this city held a meeting this afternoon and resolved to suspend specie payments to-morrow morning.

AUGUSTA, Ga., Nov. 21—Both branches of the Georgia Legislature have unanimously passed a bill to call a State Convention.

PHILADELPHIA, Nov. 21.—The brokers of this city refuse to take the notes of the Bank of Commerce, at Erie, and the Pitston Bank.

WASHINGTON, Nov. 21.

The message will be presented to Congress on the third day of the session. Advance copies will be sent north as far as Boston, and south as far as Richmond.

A Tribune despatch says Judge Greenwood, commissioner of Indian affairs, has returned from a trip to Arkansas. He states that three-fourths of the people there are opposed to any disunion movement until some unconstitutional act has been committed, justifying resistance.

A Herald despatch says that Senator Chandler does not desire a seat in Lincoln's Cabinet; also, that Secretary Thompson had a free consultation with Mr. Corwin as to the measures of the present and coming administration to avert the impending danger. The same correspondent says that information has been received there that nineteen-twentieths of the large slaveholders of the cotton states, who do not however compose a tenth of the voters there, deprecate the secession movement.

FORT KEARNEY, Nov. 22.

The pony express which left San Francisco on the evening of the 10th, passed here at 4 o'clock this morning, but left no despatches for the associated press. This pony is over twenty-four hours behind time, owing to bad storms in the mountains.

The wind here is east of north, and blowing a gale, accompanied with fine, dry snow. The thermometer marks 29° and is descending.

The few Pike's Peakers who are now on the road in this vicinity, have pitched their tents and anchored them to await the abatement of the storm, it being impossible to travel with ox teams and wagon in such boisterous weather.

WHEELING, Va., Nov. 22.

Banks of this city suspended specie payment this morning. They are in undoubted condition, and will keep their notes good curreney.

NEW ORLEANS, Nov. 21.

It is reported that several produce houses have suspended to-day. Meetings are being held in Texas, calling on the governor to convene the legislature, to consider the proper method of vindicating the rights and honor of Texas.

PHILADELPHIA, Nov. 22.

The bank presidents meet at noon to-day to consider the propriety of suspension.

WASHINGTON, Nov. 22.

The Washington banks suspended this morning.

WASHINGTON, Nov. 22.

The District of Columbia banks suspended specie payment to-day. There is no panic. The father of Gen. Walbridge of N. Y., died this morning after a suffering illness of several weeks.

NEW YORK, Nov. 21.

Thomson Brothers state that the currency panic to-day has been equal to that of 1857. They quote all bills south of Washington at 70a75 per cent discount. Illinois and Wisconsin 15 per cent discount. Ohio, Indiana, Kentucky and Canada 3a5 dis count. New York state and New England 1-2 discount. Maryland and Peunsylvania 1a2. The Post says the presidents of the leading banks are discussing a project for relieving the community by issuing scrip based on bills receivable of United States stocks and other approved collaterals, to pass in liquidation of bills to each. The scrip to bear 7 per cent interest. The banks thus hope to be soon in a position to meet the wants of their dealers. An expansion in loans of several millions is looked for this week.

MARRIED.

In Janesville, Nov. 21st, 1860, by Rev. E. J. Goodspeed, HENRY HEMMING, of the firm of Hemming & Thomas, and Miss ANNA AKERLY.

Also, by the same, on the same day, GEORGE MORRIS PIERCE, late of California, and Miss ANNA COMSTOCK, of Rock.

Also, by the same, Nov. 22d WILLIAM SKELLY, of this city, and Miss MARY MELVINA WILLIAMS, of the town of Janesville.

In Whitewater, Tuesday, the 25th inst., by the Rev. M. P. Kinney, CHARLES R. GIBBS, esq., of this city and Mrs. F. BIRGE, of Whitewater.

DIED.

At his residence in Lima Center, Wis., Nov. 12th, Dr. L. M. COON, aged 39 years.

By this melancholy event his family and friends and the community at large have met with an irreparable loss. All will indeed miss his hopeful and health inspiring visits to their bedsides, and the afflicted will miss his sympathizing voice. As a physician and surgeon he had deservedly won a high reputation; and he endeared himself to all the friends of education by his earnest and active zeal in that cause; but above all as a husband, parent and man he was kind, affectionate, honest and upright. His family are specially deserving of the sympathy of the community, as this bereavment deprives a crippled son of his chief support and protection. COM.

In Watertown, New York, Nov. 9th, at the residence of W. F. Otterson, of congestion of the stomach, EVA LIDGER, 2d daughter of Wilson A. and Caroline E. Reed, aged 7 years, 6 months and 2 days.

Eva was a child of remarkable intelligence and vivacity of mind, and her face always wore a happy smile, making her a favorite with all who knew her. But "Death loves a shining mark," and with unrelenting hand has borne our treasure from our arms. Yet we do not fear for Eva; our child has gone, simple and trusting, in her childish innocence into the hands of our all-wise Father. Of such we know is the kingdom of Heaven.

Softly as the golden sun
Sinks behind the purple west,
Our darling Eva passed away,
To sleep her long and quiet rest. [COM.

NEW CHURCH IN CLINTON.—We are pleased to learn that our neighbors at Clinton Junction, having respect to their future prosperity, as well as to their religious wants and improvement, have recently finished a very neat and pleasant house of worship. It was built by the Congregational Church and Society, and, what is highly commendable to them, is, that it is entirely paid for. It was formally dedicated to the object for which it was built, on Thursday, the 8th inst., in the presence of a large audience, who were delighted with the enjoyment of the first fruits of their toils and liberality. Rev. M. P. Kinney, of this city, preached the sermon.

Clinton is a thriving village of recent beginning, and the two sanctuaries that now grace its appearance are indications that the people have an appreciation of those things that are essential to good society and healthy growth.

Ladies' Festival.

The ladies of the Congregational Church of this city will hold a festival at Lappin's Hall, on Thursday evening, Nov. 22d; the proceeds to be appropriated for the purchase of new books for the Sabbath School library.

The entertainment will be enlivened by the Bower City Band, and by select Vocal Music, under the charge of Mr. D. D. Wilson.

Oysters, Ice Cream, &c., will be liberally provided.

An invitation to citizens generally is extended.

Admittance to the Hall, one dime.

THE CHICAGO & NORTHWESTERN RAILWAY.—The work between Oshkosh and Appleton is being prosecuted with vigor, notwithstanding the difficulty that has been experienced by the company in procuring workmen. We hear reported, says the Chicago Journal, that two hundred and fifty hands could find employment on the works. The distance from Oshkosh to Appleton is twenty-three miles. It is the design of the company to complete the road to the latter place before the winter sets in.

CHAPMANS' EMPORIUM.—Among the purchasers of heavy winter stocks, Chapman & Bro. take a front rank position. They are popular traders, because they always keep a large stock and a good assortment, and deal fairly. The consequence is they have established a large trade where competition is brisk and prices low. See their advertisement in to-day's paper.

Circular to Town Superintendents.

At the last session of the "Rock County Teachers' Association," a committee was appointed to prepare a brief address to the town superintendents of the county, asking their assistance in carrying out a plan of the association.

The various state and county associations and institutes doubtless exert a considerable influence, and have their place and importance in our educational efforts; but there is a want which they fail to meet, viz: a greater interest on the part of the people in our public schools and the thorough education of the children.

The association proposes to the town superintendents to procure, during the coming winter, one or more lectures upon educational topics, in each school district in the county. It is earnestly hoped that they, perceiving the great good to be accomplished by this means, will take necessary measures to secure, in the time mentioned, at least one lecture in each district.

Those superintendents, or others, wishing to act in the matter, who may find difficulty in procuring lectures, will receive information in reference to the same by addressing the president of the association, Rev. W. C. Whitford, at Milton.

SNOW.—It is snowing here this afternoon quite briskly. This is the first snow of the season sufficient to whiten the ground.

☞ Any persons desirous of exchanging good western lands for a house and lot in this city, can learn of an opportunity by referring to our advertising columns.

FINE NUMBER.—The last number out of Frank Leslie's Family Magazine and Gazette of Fashions, is equal to any ever published. It is one of the best magazines in the country for families, since it embraces all kinds of valuable reading, and an abundance of it, besides keeping them posted in relation to the fashions. The ladies *will* find out what the fashions are, either by gossip among themselves or from magazines, and the best way is to buy Leslie's monthly, and let them regulate these matters according to a good standard.

☞ The breaking up of the Democratic party is a very serious thing for the myriads of newspapers which have fattened during the last eight years upon government pap. The "able editors" of the rural political press are already in a terrible condition of funk, and have made the most pathetic appeals to help them or they sink. The capitalist is of the opinion that the operation will not pay; so he buttons up his pocket, winks his eye, and says "sink."

MISCELLANEOUS.

THE AMALGAMATION OF LANGUAGES.—There is a growing tendency in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into their own: thus the word Cephalic, which is from the Greek, signifying "for the head," is now becoming popularized in connection with Mr. Spalding's great Headache remedy, but it will soon be used in a more general way, and the word Cephalic will become as common as electrotype and many others whose distinction as foreign words has been worn away by common usage until they seem "native and to the manor born."

'ardly Realized.

Hi 'ad 'a 'orrible 'eadache this afternoon, hand I stepped into the hapothecaries hand says hi to the man, "Can you 'elpse me of an 'eadache?" "Does it 'ache 'ard," says 'e. "Hexceedingly," says hi, hand upon that 'e gave me a Cephalic Pill, hand 'pon me 'onor it cured me so quick that I 'ardly realized I 'ad 'ad an 'eadache.

☞ HEADACHE is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise escape attention, till too late to be remedied; and its indications should never be neglected. Headaches may be classified under two names, viz: Symptomatic and Idiopathic. Symptomatic headache is exceedingly common and is the precursor of a great variety of diseases, among which are Apoplexy, Gout, Rheumatism and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach, constituting *sick headache*, of hepatic disease constituting *bilious headache*, of worms, constipation and other disorders of the bowels, as well as renal and uterine affections. Diseases of the heart are very frequently attended with headaches; Anæmia and plethora are also affections which frequently occasion headache. Idiopathic headache is also very common, being usually distinguished by the name of *nervous headache*, sometimes coming on suddenly in a state of apparently sound health and prostrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirits or acerbity of temper.—In most instances the pain is in the front of the head, over one or both eyes, and sometimes provoking vomiting; under this class may also be named *Neuralgia*.

For the treatment of either class of headache the Cephalic Pills have been found a sure and safe remedy, relieving the most acute pains in a few minutes, and by its subtle power eradicating the diseases of which headache is the unerring index.

BRIDGET.—Missus wants you to send her a box of Cephalic Glue, no, a bottle of prepared Pills.—but I'm thinking that's not just it neither: but perhaps ye'll be after knowing what is is, Ye see she's nigh dead and gone with the sick headache, and wants some more of that same as relaived her before.

Druggist.—You must mean Spalding's Cephalic Pills.

Bridget.—Och! sure now and you've said it, here's the quarter and give me the pills and dont be all day about it aither.

Constipation or Costiveness.

No one of the "many ills flesh is heir to" is so prevalent, so little understood, and so much neglected as costiveness. Often originating in carelessness, or sedentary habits; it is regarded as a slight disorder of too little consequence to excite anxiety, while in reality it is the precursor and companion of many of the most fatal and dangerous diseases, and unless early eradicated it will bring the sufferer to an untimely grave. Among the lighter evils of which costiveness is the usual attendant are Headache, Colic, Rheumatism, Foul Breath, Piles and others of like nature, while a long train of frightful diseases such as Malignant Fevers, Abcesses, Dysentary, Diarrhœa, Dyspepsia, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondriasis, Melancholy and Insanity, first indicate their presence in the system by this alarming symptom. Not unfrequently the diseases named originate in Costiveness, but take on an independent existence unless the cause is eradicated in an early stage. From all these considerations it follows that the disorder should receive immediate attention whenever it occurs, and no person should neglect to get a box of Cephalic Pills on the first appearance of the complaint, as their timely use will expel the insidious approaches of disease and destroy this dangerous foe to human life.

A Real Blessing.

Physician.—Well, Mrs. Jones, how is your Headache?

Mrs. Jones.—Gone! Doctor, all gone! the pill you sent cured me in just twenty minutes, and I wish you would send more so that I can have them handy.

Physician.—You can get them at any Druggists.—Call for Cephalic Pills, I find they never fail, and I recommend them in all cases of headache.

Mrs. Jones.—I shall send for a box directly, and shall tell all my suffering friends, for they are a *real blessing*.

TWENTY MILLIONS OF DOLLARS SAVED.—Mr. Spalding has sold two millions of bottles of his celebrated Prepared Glue, and it is estimated that each bottle saves at least ten dollars worth of broken furniture, thus making an aggregate of twenty millions of dollars reclaimed from total loss by this valuable invention. Having made his glue a household word, he now proposes to do the world still greater service by curing all the aching heads with his Cephalic Pills, and if they are as good as his glue, headache will soon vanish away like snow in July.

☞ OVER EXCITEMENT, and the mental care and anxiety incident to close attention to business or study, are among the numerous causes of nervous headache. The disordered state of mind and body incident to this distressing complaint is a fatal blow to all energy and ambition. Sufferers by this disorder can always obtain speedy relief from these distressing attacks, by using one of the Cephalic Pills whenever the symptoms appear. It quiets the overtasked brain, and soothes the strained and jarring nerves, and relaxes the tension of the stomach which always accompanies and aggravates the disordered condition of the brain.

FACT WORTH KNOWING.—Spalding's Cephalic Pills are a certain cure for Sick Headache, Bilious Headache, Nervous Headache, Costiveness and General Debility.

GREAT DISCOVERY.—Among the most important of all the great medical discoveries of this age may be considered the system of vaccination for protection from Small Pox, the Cephalic Pill for relief of headache, and the use of Quinine for the prevention of fevers; either of which is a sure specific, whose benefits will be experienced by suffering humanity long after their discoverers are forgotten.

☞ Did you ever have the sick headache? Do you remember the throbbing temples, the fevered brow, the loathing and disgust at the sight of food. How totally unfit you were for pleasure, conversation or study.—One of the Cephalic Pills would have relieved you from all the suffering which you then experienced. For this and other purposes you should always have a box of them on hand to use as occasion requires.

All kinds of
Headache.
By the use of these pills the periodic attacks of *Nervous or Sick Headache* may be prevented; and if taken at the commencement of an attack immediate relief from pain and sickness will be obtained.
They seldom fail in removing *Nausea* and *Headache* to which females are so subject.
They act gently upon the bowels,—removing *Costiveness*.
For *Literary Men*, *Students*, delicate females, and all persons of *sedentary habits*, they are valuable as a *Laxative*, improving the *appetite*, giving *tone* and *vigor* to the digestive organs, and restoring the natural elasticity and strength of the whole system.
The CEPHALIC PILLS are the result of long investigation and carefully conducted experiments, having been in use many years, during which time they have prevented and relieved a vast amount of pain and suffering from headache, whether originating in the *nervous* system or from a deranged state of the *stomach*.
They are entirely vegetable in their composition, and may be taken at all times with perfect safety without making any change of diet, *and the absence of any disagreeable taste renders it easy to administer them to children.*

NEW CHURCH IN CLINTON.—We are pleased to learn that our neighbors at Clinton Junction, having respect to their future prosperity, as well as to their religious wants and improvement, have recently finished a very neat and pleasant house of worship. It was built by the Congregational Church and Society, and, what is highly commendable to them, is, that it is entirely paid for. It was formally dedicated to the object for which it was built, on Thursday, the 8th inst., in the presence of a large audience, who were delighted with the enjoyment of the first fruits of their toils and liberality. Rev. M. P. Kinney, of this city, preached the sermon.

Clinton is a thriving village of recent beginning, and the two sanctuaries that now grace its appearance are indications that the people have an appreciation of those things that are essential to good society and healthy growth.

Ladies' Festival.

The ladies of the Congregational Church of this city will hold a festival at Lappin's Hall, on Thursday evening, Nov. 22d; the proceeds to be appropriated for the purchase of new books for the Sabbath School library.

The entertainment will be enlivened by the Bower City Band, and by select Vocal Music, under the charge of Mr. D. D. Wilson.

Oysters, Ice Cream, &c., will be liberally provided.

An invitation to citizens generally is extended.

Admittance to the Hall, one dime.

THE CHICAGO & NORTHWESTERN RAILWAY.—The work between Oshkosh and Appleton is being prosecuted with vigor, notwithstanding the difficulty that has been experienced by the company in procuring workmen. We hear reported, says the Chicago Journal, that two hundred and fifty hands could find employment on the works. The distance from Oshkosh to Appleton is twenty-three miles. It is the design of the company to complete the road to the latter place before the winter sets in.

CHAPMANS' EMPORIUM.—Among the purchasers of heavy winter stocks, Chapman & Bro. take a front rank position. They are popular traders, because they always keep a large stock and a good assortment, and deal fairly. The consequence is they have established a large trade where competition is brisk and prices low. See their advertisement in to-day's paper.

Circular to Town Superintendents.

At the last session of the "Rock County Teachers' Association," a committee was appointed to prepare a brief address to the town superintendents of the county, asking their assistance in carrying out a plan of the association.

The various state and county associations and institutes doubtless exert a considerable influence, and have their place and importance in our educational efforts; but there is a want which they fail to meet, viz: a greater interest on the part of the people in our public schools and the thorough education of the children.

The association proposes to the town superintendents to procure, during the coming winter, one or more lectures upon educational topics, in each school district in the county. It is earnestly hoped that they, perceiving the great good to be accomplished by this means, will take necessary measures to secure, in the time mentioned, at least one lecture in each district.

Those superintendents, or others, wishing to act in the matter, who may find difficulty in procuring lectures, will receive information in reference to the same by addressing the president of the association, Rev. W. C. Whitford, at Milton.

SNOW.—It is snowing here this afternoon quite briskly. This is the first snow of the season sufficient to whiten the ground.

☞ Any persons desirous of exchanging good western lands for a house and lot in this city, can learn of an opportunity by referring to our advertising columns.

FINE NUMBER.—The last number out of Frank Leslie's Family Magazine and Gazette of Fashions, is equal to any ever published. It is one of the best magazines in the country for families, since it embraces all kinds of valuable reading, and an abundance of it, besides keeping them posted in relation to the fashions. The ladies *will* find out what the fashions are, either by gossip among themselves or from magazines, and the best way is to buy Leslie's monthly, and let them regulate these matters according to a good standard.

☞ The breaking up of the Democratic party is a very serious thing for the myriads of newspapers which have fattened during the last eight years upon government pap. The "able editors" of the rural political press are already in a terrible condition of funk, and have made the most pathetic appeals to help them or they sink. The capitalist is of the opinion that the operation will not pay; so he buttons up his pocket, winks his eye, and says "sink."

MISCELLANEOUS.

THE AMALGAMATION OF LANGUAGES.—There is a growing tendency in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into their own; thus the word Cephalic, which is from the Greek, signifying "for the head," is now becoming popularized in connection with Mr. Spalding's great Headache remedy, but it will soon be used in a more general way, and the word Cephalic will become as common as electrotype and many others whose distinction as foreign words has been worn away by common usage until they seem "native and to the manor born."

'ardly Realized.

Hi 'ad a terrible 'eadache this afternoon, hand I stepped into the hapothecaries hand says hi to the man, "Can you hease me of an 'eadache?" "Does it hache 'ard," says 'e. "Horexedingly," says hi, hand upon that 'e gave me a Cephalic Pill, hand 'pon me 'onor it cured me so quick that I hardly realized I 'ad 'ad an 'eadache.

☞ HEADACHE is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise escape attention, till too late to be remedied; and its indications should never be neglected. Headaches may be classified under two names, viz: symptomatic and idiopathic. Symptomatic headache is exceedingly common and is the precursor of a great variety of diseases, among which are Apoplexy, Gout, Rheumatism and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach, constituting *sick headache*, of hepatic diseases constituting *bilious headache*, of worms, constipation and other disorders of the bowels, as well as local and uterine affections. Diseases of the heart are very frequently attended with headaches; Anæmia and plethora are also affections which frequently occasion headache. Idiopathic headache is also very common, being usually distinguished by the name of *nervous headache*, sometimes coming on suddenly in a state of apparently sound health and prostrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirits or acerbity of temper.—In most instances the pain is in the front of the head, over one or both eyes, and sometimes preceding vomiting; under this class may also be named *Neuralgia*.

For the treatment of either class of headache the Cephalic Pills have been found a sure and safe remedy, relieving the most acute pains in a few minutes, and by its subtle power eradicating the diseases of which headache is the unerring index.

BRIDGET.—Missus wants you to send her a box of Cephalic Glue, no, a bottle of prepared Pills,—but I'm thinking that's not just it neither; but perhaps you'll be after knowing what is is. Ye see she's nigh dead and gone with the sick headache, and wants some more of that same as relaived her before.

Druggist.—You must mean Spalding's Cephalic Pills *Bridget.*—Och! sure now and you've red it, here's the quarter and give me the pills and dont be all day about it aither.

Constipation or Costiveness.

No one of the "many ills flesh is heir to" is so prevalent, so little understood, and so much neglected as costiveness. Often originating in carelessness, or sedentary habits: it is regarded as a slight disorder of too little consequence to excite anxiety, while in reality it is the precursor and companion of many of the most fatal and dangerous diseases, and unless early eradicated it will bring the sufferer to an untimely grave. Among the lighter evils of which costiveness is the usual attendant are Headache, Colic, Rheumatism, Foul Breath, Piles and others of like nature, while a long train of frightful diseases such as Malignant Fevers, Abscesses, Dysentary, Diarrhœa, Dyspepsia, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondriasis, Melancholy and Insanity, first indicate their presence in the system by this alarming symptom. Not unfrequently the diseases named originate in Constipation, but take on an independent existence unless the cause is eradicated in an early stage. From all these considerations it follows that the disorder should receive immediate attention whenever it occurs, and no person should neglect to get a box of Cephalic Pills on the first appearance of the complaint, as their timely use will expel the insidious approaches of disease and destroy this dangerous foe to human life.

A Real Blessing.

Physician.—Well, Mrs. Jones, how is your headache?
Mrs. Jones.—Gone! Doctor, all gone! the pill you sent cured me in just twenty minutes, and I wish you would send more so that I can have them handy.
Physician.—You can get them at any Druggists.—Call for Cephalic Pills, I find they never fail, and I recommend them in all cases of headache.
Mrs. Jones.—I shall send for a box directly, and shall tell all my suffering friends, for they are a *real blessing.*

TWELVE MILLIONS OF DOLLARS SAVED.—Mr. Spalding has sold two millions of bottles of his celebrated Prepared Glue, and it is estimated that each bottle saves at least ten dollars worth of broken furniture, thus making an aggregate of twenty millions of dollars reclaimed from total loss by this valuable invention. Having made his glue a household word, he now proposes to do the world still greater service by curing all the aching heads with his Cephalic Pills, and if they are as good as his glue, headache will soon vanish away like snow in July.

☞ OVER EXCITEMENT, and the mental care and anxiety incident to close attention to business or study, are among the numerous causes of nervous headache. The disordered state of mind and body incident to this distressing complaint is a fatal blow to all energy and ambition. Sufferers by this disorder can always obtain speedy relief from these distressing attacks, by using one of the Cephalic Pills whenever the symptoms appear. It quiets the overtasked brain, and soothes the strained and jarring nerves, and relaxes the tension of the stomach which always accompanies and aggravates the disordered condition of the brain.

FACT WORTH KNOWING.—Spalding's Cephalic Pills are a certain cure for Sick Headache, Bilious Headache, Nervous Headache, Costiveness and General Debility.

GREAT DISCOVERY.—Among the most important of all the great medical discoveries of this age may be considered the system of vaccination for protection from Small Pox, the Cephalic Pill for relief of headache, and the use of Quinine for the prevention of fevers, either of which is a sure specific, whose benefits will be experienced by suffering humanity long after their discoverers are forgotten.

☞ Did you ever have the sick headache? Do you remember the throbbing temples, the fevered brow, the loathing and disgust at the sight of food. How totally unfit you were for pleasure, conversation or study.—One of the Cephalic Pills would have relieved you from all the suffering which you then experienced. For this and other purposes you should always have a box of them on hand to use as occasion requires.

All kinds of
Headache.
By the use of these pills the periodic attacks of *Nervous or Sick Headache* may be prevented; and if taken at the commencement of an attack immediate relief from pain and sickness will be obtained.
They seldom fail in removing *Nausea* and *Headache* to which females are so subject.
They act gently upon the bowels,—removing *Costiveness.*
For *Literary Men, Students,* delicate *females,* and all persons of *sedentary habits,* they are valuable as a *Laxative,* improving the *appetite,* giving *tone* and *vigor* to the digestive organs, and restoring the natural elasticity and strength of the whole system.
The CEPHALIC PILLS are the result of long investigation and carefully conducted experiments, having been in use many years, during which time they have prevented and relieved a vast amount of pain and suffering from headache, whether originating in the *nervous* system or from a deranged state of the *stomach.*
They are entirely vegetable in their composition, and may be taken at all times with perfect safety without making any change of *diet, and the absence of any disagreeable taste renders it easy to administer them to children.*

NEW CHURCH IN CLINTON.—We are pleased to learn that our neighbors at Clinton Junction, having respect to their future prosperity, as well as to their religious wants and improvement, have recently finished a very neat and pleasant house of worship. It was built by the Congregational Church and Society, and, what is highly commendable to them, is, that it is entirely paid for. It was formally dedicated to the object for which it was built, on Thursday, the 8th inst., in the presence of a large audience, who were delighted with the enjoyment of the first fruits of their toils and liberality. Rev. M. P. Kinney, of this city, preached the sermon.

Clinton is a thriving village of recent beginning, and the two sanctuaries that now grace its appearance are indicntions that the people have an appreciation of those things that are essential to good society and healthy growth.

Ladies' Festival.

The ladies of the Congregational Church of this city will hold a festival at Lappin's Hall, on Thursday evening, Nov. 22d; the proceeds to be appropriated for the purchase of new books for the Sabbath School library.

The entertainment will be enlivened by the Bower City Band, and by select Vocal Music, under the charge of Mr. D. D. Wilson.

Oysters, Ice Cream, &c., will be liberally provided.

An invitation to citizens generally is extended.

Admittance to the Hall, one dime.

THE CHICAGO & NORTHWESTERN RAILWAY.—The work between Oshkosh and Appleton is being prosecuted with vigor, notwithstanding the difficulty that has been experieneed by the company in procuring workmen. We hear reported, says the Chicago Journal, that two hundred and fifty hands could find employment on the works. The distance from Oshkosh to Appleton is twenty-three miles. It is the design of the company to complete the road to the latter place before the winter sets in.

CHAPMANS' EMPORIUM.—Among the purchasers of heavy winter stocks, Chapman & Bro. take a front rank position. They are popular traders, because they always keep a large stock and a good assortment, and deal fairly. The consequence is they have established a large trade where competition is brisk and prices low. See their advertisement in to-day's paper.

Circular to Town Superintendents.

At the last session of the "Rock County Teachers' Association," a committee was appointed to prepare a brief address to the town superintendents of the county, asking their assistance in carrying out a plan of the association.

The various state and county associations and institutes doubtless exert a considerable influence, and have their place and importance in our educational efforts; but there is a want which they fail to meet, viz: a greater interest on the part of the people in our public schools and the thorough education of the children.

The association proposes to the town superintendents to procure, during the coming winter, one or more lectures upon educational topics, in each school district in the county. It is earnestly hoped that they, perceiving the great good to be accomplished by this means, will take necessary measures to secure, in the time mentioned, at least one lecture in each district.

Those superintendents, or others, wishing to act in the matter, who may find difficulty in procuring lectures, will receive information in reference to the same by addressing the president of the association, Rev. W. C. Whitford, at Milton.

SNOW.—It is snowing here this afternoon quite briskly. This is the first snow of the season sufficient to whiten the ground.

☞ Any persons desirous of exchanging good western lands for a house and lot in this city, can learn of an opportunity by referring to our advertising columns.

FINE NUMBER.—The last number out of Frank Leslie's Family Magazine and Gazette of Fashions, is equal to any ever published. It is one of the best magazines in the country for families, since it embraces all kinds of valuable reading, and an abundance of it, besides keeping them posted in relation to the fashions. The ladies *will* find out what the fashions are, either by gossip among themselves or from magazines, and the best way is to buy Leslie's monthly, and let them regulate these matters according to a good standard.

☞ The breaking up of the Democratic party is a very serious thing for the myriads of newspapers which have fattened during the last eight years upon government pap. The "able editors" of the rural political press are already in a terrible condition of funk, and have made the most pathetic appeals to help them or they sink. The capitalist is of the opinion that the operation will not pay; so he buttons up his pocket, winks his eye, and says "sink."

MISCELLANEOUS.

"THE ASTHETICISM OF LANGUAGE.—There is a growing tendency in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into their own; thus the word Cephalic, which is from the Greek, signifying "for the head," is now becoming popularized in connection with Mr. Spalding's great Headache remedy, but it will soon be used in a more general way, and the word Cephalic will become as common as electrotype and many others whose distinction as foreign words has been worn away by common usage until they seem "native and to the manor born."

'ardly Realized.

Hi 'ad a 'orrible 'eadache this afternoon, hand I stepped into the hapothecaries hand says hi to the man, "Can you hease me of an 'eadache?" "Does it hache 'ard," says 'e. "Hexceedingly," says hi, hand upon that 'e gave me a Cephalic Pill, hand 'pon me 'onor it cured me so quick that I 'ardly realized I 'ad 'ad an 'eadache.

☞ HEADACHE is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise escape attention, till too late to be remedied; and its indications should never be neglected. Headaches may be classified under two names, viz: Symptomatic and Idiopathic. Symptomatic headache is exceedingly common and is the precursor of a great variety of diseases, among which are Apoplexy, Gout, Rheumatism and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach constituting *sick headache*, of hepatic disease constituting *bilious headache*, of worms, constipation and other disorders of the bowels, as well as renal and uterine affections. Diseases of the heart are very frequently attended with headaches; Anæmia and plethora are also affections which frequently occasion headache. Idiopathic headache is also very common, being usually distinguished by the name of *nervous headache*, sometimes coming on suddenly in a state of apparently sound health and pinostrating at once the mental and physical energies, and in other instances it comes on slowly, preceded by depression of spirits or acerbity of temper.—In most instances the pain is in the front of the head, over one or both eyes, and sometimes provoking vomiting; under this class may also be named *Neuralgia*.

For the treatment of either class of headache the Cephalic Pills have been found a sure and safe remedy, relieving the most acute pain in a few minutes, and by its subtle power eradicating the disease of which headache is the unerring index.

BRIDGET.—Missus wants you to send her a box of Cephalic Glue, no, a bottle of prepared Pills,—but I'm thinking that's not just it neither; but perhaps you'll be aither knowing what is is. Ye see she's nigh dead and gone with the sick headache, and wants some more of that same as relaived her before.

Druggist.—You must mean Spalding's Cephalic Pills.

Bridget.—Och! sure now and you've said it, here's the quarter and give me the pills and dont be all day about it aither.

Constipation or Costiveness.

No one of the "many ills flesh is heir to" is so prevalent, so little understood, and so much neglected as costiveness. Often originating in carelessness, or sedentary habits; it is regarded as a slight disorder of too little consequence to excite anxiety, while in reality it is the precursor and companion of many of the most fatal and dangerous diseases, and unless early eradicated it will bring the sufferer to an untimely grave. Among the lighter evils of which costiveness is the usual attendant are Headache, Colic, Rheumatism, Foul Breath, Piles, and others of like nature, while a long train of frightful diseases such as Malignant Fevers, Abcesses, Dysentary, Diarrhœa, Dyspepsia, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondriasis, Melancholy and Insanity, first indicate their presence in the system by this alarming symptom. Not unfrequently the diseases named originate in Constipation, but take on an independent existence unless the cause is eradicated in an early stage. From all these considerations it follows that the disorder should receive immediate attention whenever it occurs, and no person should neglect to get a box of Cephalic Pills on the first appearance of the complaint, as their timely use will expel the insidious approaches of disease and destroy this dangerous foe to human life.

A Real Blessing.

Physician.—Well, Mrs. Jones, how is your headache?

Mrs. Jones.—Gone! Doctor, all gone! the pill you sent cured me in just twenty minutes, and I wish you would send more so that I can have them handy.

Physician.—You can get them at any Druggists.—Call for Cephalic Pills, I find they never fail, and I recommend them in all cases of headache.

Mrs. Jones.—I shall send for a box directly, and shall tell all my suffering friends, for they are a *real blessing*.

TWENTY MILLIONS OF DOLLARS SAVED.—Mr. Spalding has sold two millions of bottles of his celebrated Prepared Glue: and it is estimated that each bottle saves at least ten dollars worth of broken furniture, thus making an aggregate of twenty millions of dollars reclaimed from total loss by this valuable invention. Having made his glue a household word, he now proposes to do the world still greater service by curing all the aching heads with his Cephalic Pills, and if they are as good as his glue, headache will soon vanish away like snow in July.

☞ OVER EXCITEMENT, and the mental care and anxiety incident to close attention to business or study, are among the numerous causes of nervous headache. The disordered state of mind and body, incident to this distressing complaint, is a fatal blow to all energy and ambition. Sufferers by this disorder can always obtain speedy relief from these distressing attacks, by using one of the Cephalic Pills whenever the symptoms appear. It quiets the overtasked brain, and soothes the strained and jarring nerves, and relaxes the tension of the stomach which always accompanies and aggravates the disordered condition of the brain.

FACT WORTH KNOWING.—Spalding's Cephalic Pills are a certain cure for Sick Headache, Bilious Headache, Nervous Headache, Costiveness and General Debility.

GREAT DISCOVERY.—Among the most important of all the great medical discoveries of this age may be considered the system of vaccination for protection from Small Pox; the Cephalic Pill for relief of headache, and the use of Quinine, for the prevention of fevers, either of which is a sure specific, whose benefits will be experienced by suffering humanity long after their discoverers are forgotten.

☞ Did you ever have the sick headache? Do you remember the throbbing temples, the fevered brow, the loathing and disgust at the sight of food. How totally unfit you were for pleasure, conversation or study.—One of the Cephalic Pills would have relieved you from all the suffering which you then experienced. For this and other purposes you should always have a box of them on hand to use as occasion requires.

CURE
All kinds of
Headache.
By the use of these pills the periodic attacks of *Nervous or Sick Headache* may be prevented; and if taken at the commencement of an attack immediate relief from pain and sickness will be obtained.
They seldom fail in removing *Nausea* and *Headache* to which females are so subject.
They act gently upon the bowels,—removing *Costiveness*.
For *Literary Men, Students*, delicate females, and all persons of *sedentary habits*, they are valuable as a *Laxative*, improving the *appetite*, giving *tone* and *vigor* to the digestive organs, and restoring the natural elasticity and strength of the whole system.
The CEPHALIC PILLS are the result of long investigation and carefully conducted experiments, having been in use many years, during which time they have prevented and relieved a vast amount of pain and suffering from headache, whether originating in the *nervous* system or from a deranged state of the *stomach*.
They are entirely vegetable in their composition, and may be taken at all times with perfect safety without making any change of diet, *and the absence of any disagreeable taste renders it easy to administer them to children.*
